# WELCOME TO THE FUTURE OF SHOWERING 360° HYDROTHERAPY

Kohler showering brings 360-degrees hydrotherapy with multiple sprays and the targeted body jets.

It is scientifically-backed method to improve physical and mental health where being surrounded by water reduces sensory inputs, calming the mind and body.

## SUSTAINABLE LUXURY

With Air- infused Katalyst™ technology, Indulge responsibly in Innovation. Low-flow options and targeted sprays deliver a powerful shower at lower water consumption per minute. This allows you to stay longer and guilt free in your shower.

## UNRIVALED SHOWER CONTROL

The precision-engineered valves enable multiple showers to work simultaneously, as desired. Enjoy unparalleled flexibility with independent flow and temperature adjustment, allowing you to customize your perfect shower experience.

## VARIED TEMPERATURE SETTINGS

Warm water increases blood flow, reducing muscles spasms and pain. Cool water constricts blood vessels, reducing inflammation. Customise and create a dual-temperature zone as per your desire.

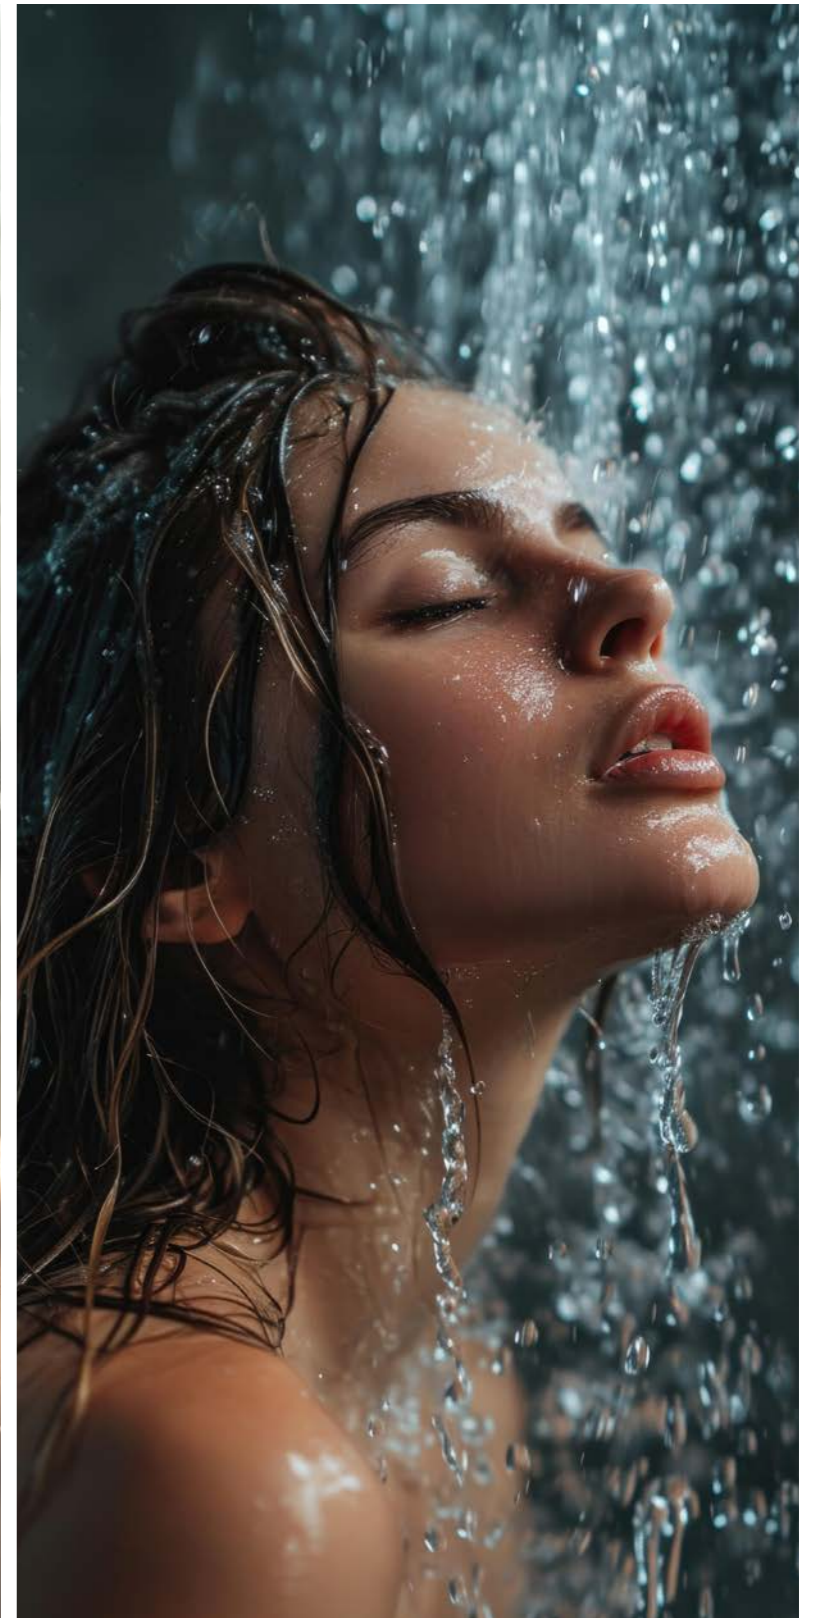

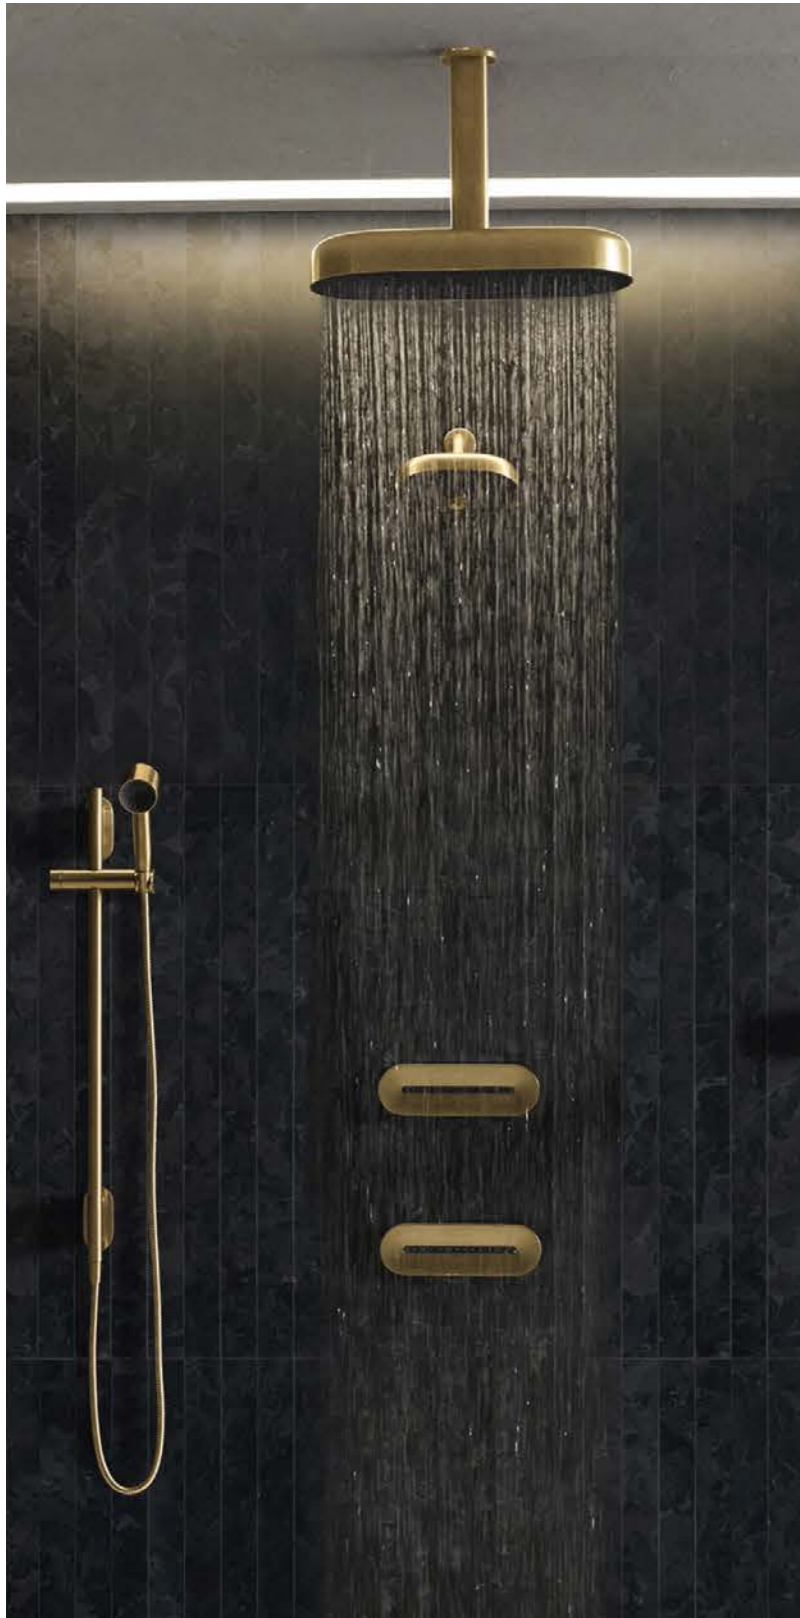

## STEAM BATH

Kohler brings benefits of steam bath with the Fast response technology producing luxurious steam shower in 60 seconds. It produces constant steam to minimise temperature fluctuation and per session water consumption is significantly lesser than a traditional showering.

## JETS FOR THE SENSORY EXPERIENCES

Our meticulously choreographed spray patterns deliver precise massages that reduces gravity's impact on the body, relaxing muscles and joints. Sensation of these water jets on skin stimulates nerve endings, releasing endorphins (natural painkillers).

# SPRAYS

## FULL COVERAGE WITH KATALYST TECHNOLOGY

With air-infused droplets, the flow of water is intensified for enhanced coverage and comfort. It drenches and clings to the body in a full, luxurious spray.

## CLOUD

Super-fine, silken droplets converge to gently caress the body. The expansive, luxurious spray feels like a warm embrace as it restores a sense of wellbeing.

## INFINITY

Interlaced water streams create three experience zones in a single spray. The droplets closest to the nozzle rinse, while the middle zone warms, and the furthest stream provides coverage

## CASCADE

A wide sheet of water cascades down, enveloping you like a refreshing waterfall. Enjoy complete coverage for a truly invigorating shower.

## HYDRO MASSAGE

Powerful, focused streams massage specific areas, delivering a deep cleansing and invigorating experience. Perfect for targeting tension and promoting muscle relaxation.

## DEEP MASSAGE

Strong streams of water twist and swirl to create a slow kneading pattern. The rhythmic massaging delivers relaxation and relief.

## SWEEP

A wide spray of fine droplets creates a soothing stream. It's ideal for a gentle massage and makes it easy to clean the shower after use.

## FULL COVERAGE RAIN

Gravity-fed droplets envelop the body in a gentle spray. The soft flow of water has a natural feel, mimicking the experience of real rainfall.

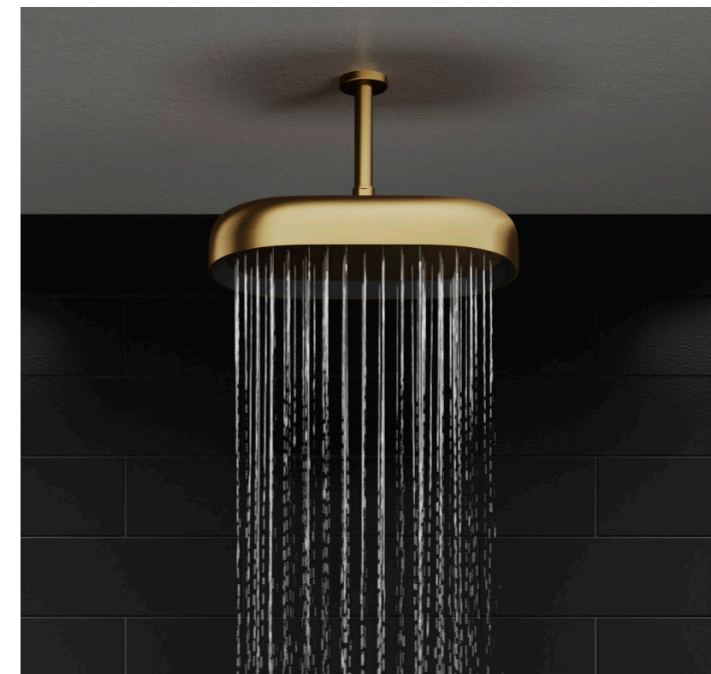

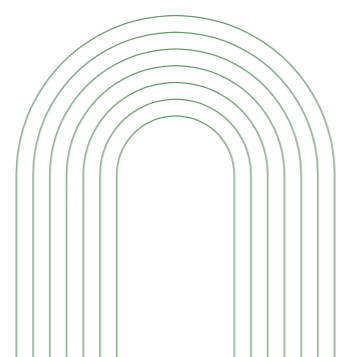

## LAMINAR

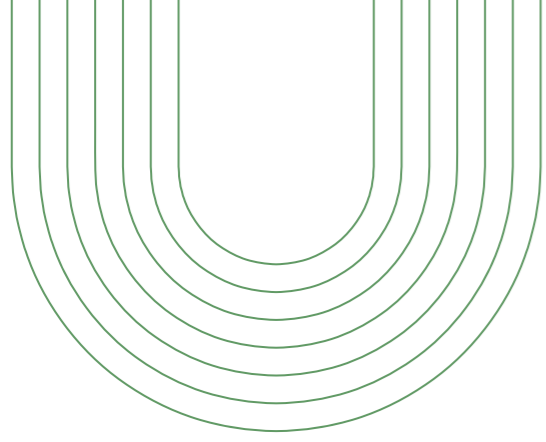

A single, smooth column of water creates a mesmerizing and focused experience. Ideal for those seeking a unique and visually captivating shower.

## KINETIC MASSAGE

Pulsating streams create a wave-like massage pattern, offering deep relaxation and soothing tired muscles.

## VIBRANT

You are unique, so should your showering space be.
